

ADITYA VERMA

Data Analyst | Data Scientist | Generative AI & Agentic AI Developer | LLM Engineer

aditya.verma47@gmail.com | +91 8871295218 | Noida, India | [linkedin.com/in/aditya-verma-data-analyst](https://www.linkedin.com/in/aditya-verma-data-analyst)
github.com/adityasurajverma

PROFESSIONAL SUMMARY

Results-driven Data Analyst and AI/ML professional with hands-on experience in data analytics, machine learning, NLP, and LLM-based chatbot development. Skilled in Python, SQL, Power BI, Tableau, and Generative AI technologies, with practical experience building predictive models, ETL pipelines, interactive dashboards, and RAG-based AI chatbot systems. Experienced in developing data-driven solutions to improve business decision-making, automate workflows, and enhance customer interaction. Proficient in machine learning frameworks, data visualization, and AI automation with strong analytical and problem-solving abilities. Seeking opportunities in Data Science, Generative AI, and AI/ML Engineering roles.

TECHNICAL KILLS

Programming Languages: Python, SQL

Data Analysis & Visualization: Advanced Excel, Power BI, Tableau, Matplotlib

AI / ML / Generative AI: Machine Learning, Deep Learning, Natural Language Processing (NLP), Generative AI, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Agentic AI, AI Chatbot Development

LLM Frameworks & Tools: LangChain, LangGraph, Prompt Engineering, Vector Databases, AI Agents
Libraries & Frameworks: Pandas, NumPy, Scikit-learn, XGBoost, TensorFlow, Keras, FastAPI

Databases: MySQL

Data Engineering & Automation: ETL Pipelines, Data Pipelines, Web Scraping, API Integration, Automation using Python, Predictive Analytics, Feature Engineering

WORK EXPERIENCE

AI/ML & Generative AI Intern (LLM & Chatbot Development) | Lava International Ltd. | Noida
January/2026 – Present

- Developed AI-powered chatbot solutions using Large Language Models (LLMs), LangChain, LangGraph, Agentic AI, and Retrieval-Augmented Generation (RAG) with MySQL database integration for intelligent query handling and automated responses.
- Built and optimized Machine Learning models for data analysis and predictive tasks using Python, Scikit-learn, Pandas, NumPy, and data preprocessing techniques.

Data Science Intern | Yugasa Software Labs Pvt. Ltd. | Gurgaon
April/2025 – November/2025

- Developed AI chatbot solutions using Python, NLP, and LLM-based architectures for customer interaction automation.
- Built and optimized Machine Learning models using Pandas, NumPy, and Scikit-learn for prediction and data analysis tasks.

Data Analyst Trainee | Digital Age Info Solution | Gwalior
May/2024 – March/2025

- Automated Excel-based reports, leading to a 30% reduction in manual work.
- Managed and cleaned client datasets to ensure accurate reporting and analysis.
- Developed a Power BI dashboard to provide valuable business insights for decision-making.

Assistant Professor & Head of Department | SDIT College | Jaipur

Aug 2018 – Nov 2020

- Teaching and mentoring engineering students in technical subjects.
- Managed departmental academic activities, curriculum planning, and student coordination.

ACADEMIC PROJECTS

Customer Churn Prediction (ML + ANN)

- Built Machine Learning models including Logistic Regression, Random Forest, and XGBoost along with ANN models using TensorFlow/Keras for customer churn prediction.
- Achieved 0.85+ AUC-ROC in ML models and 78% accuracy in ANN models.
- Improved recall using classification threshold optimization and handled imbalanced datasets using SMOTE.
- Applied GridSearchCV and K-Fold Cross Validation for model optimization and performance improvement.

Production-Level Customer Support Chatbot | LAVA International Ltd.

- Built a production-level RAG-based chatbot using LangChain, FAISS, Sentence-Transformers, and Agentic AI with a 25K+ dataset for intelligent query handling and real-time response generation.
- Integrated SQLite/MySQL database connections and multi-database querying using AI Agents, schema-aware retrieval, similarity thresholding, and NLP-based response optimization.

AI-Powered Financial Chatbot – BCG (Forage) | Sep 2025

- Built a Python-based chatbot to analyze 10-K / 10-Q financial reports.
- Generated automated financial insights using Pandas and rule-based data analysis techniques.

Data Analytics and Forensic Insights Dashboard – Deloitte Australia (Job Simulation) | Oct 2025

- Created a Tableau dashboard and used Excel to classify data, identify trends, and present business findings.

Zomato Global Cuisine Dashboard – Power BI | 2024, Power BI

- Built an interactive Power BI dashboard analyzing global cuisine trends and restaurant insights.
- Implemented ETL pipelines for data preprocessing and transformation.

Regional Sales Analysis Dashboard – Tableau | 2024, Tableau

- Designed dashboards to identify sales performance gaps and growth opportunities.

EDUCATION

Mansarovar Global University, Bhopal

Master of Business Administration (MBA) 2021 – 2023

Jaypee University of Engineering and Technology, Guna

Master of Technology (Engineering) 2014 – 2016

CERTIFICATIONS & ADDITIONAL KNOWLEDGE

- Data Science Certification – IIT Kanpur | 2023 – 2024
 - Oracle Cloud Infrastructure 2025 – AI Foundations Associate November 2025
 - Data Analytics Virtual Experience – Deloitte Australia (Forage)
 - AI-Powered Financial Chatbot Simulation – BCG (Forage)
-
